

MOTOR COACH AGE & MOTOR COACH TODAY INDEX 1950-2006

Updated through September 30, 2006

Motor Coach Age (MCA) was first published in January 1950. Prior to this there was a publication called *Bus Ways*, which was primarily a newsletter.

Between 1961 and 1966, MCA was predominately a newsletter and photo panorama. During this period we have only shown those stories which are directed to the history of individual carriers.

This index starts with the first issue of Motor Coach Age.

Motor Coach Today (MCT) was initially published in July 1994 and its index has been included starting with that date. The final issue of Motor Coach Today published was October-December 2003. MCT is no longer published.

When an issue covers more than one month, only the lead month is shown on the index. Publications dates preceded by "MCT" are from Motor Coach Today; issue numbers preceded by "SB" indicate that source is one of 20 Special Bulletins that were produced by the Bus Information Office. All other dates refer to Motor Coach Age issues.

For those interested in purchasing copies of MCA & MCT found within this index, many of the issues of MCA starting with January 1978 and forward along with most issues of MCT are still available for sale. Please review the Motor Coach Age – Motor Coach Today Available Back Issue list found on the Motor Bus Society Web at: www.motorbussociety.org for more information and ordering instructions.

Motor Coach Age issues prior to 1978 are out of print and are no longer available through the Motor Bus Society in either original, copy or electronic formats at this time.
